

## Bridie's Garden Update July 2011

Before:

A real transformation is well underway in Bridie's Garden at the Plymouth Area Coalition for the Homeless. We started this community gardening project in Fall 2010 with nothing but an underutilized backyard and a few volunteers. We now have nearly 20 tomato seedlings in the ground, a rain garden, a pea tee-pee, a few raised containers, cucumbers, squash, eggplant and much more! None of this could have been accomplished without the help of our volunteers and support from the greater community. Thank you!

July 2011:

As we move forward, there is still much to do! The weeds are filling in, some areas of fencing still need to be secured, and soon it will be time to start harvesting the crops. There are plenty of opportunities for you to get involved! Please help us keep growing hope – for a better, brighter, and sustainable future by volunteering in the garden. Email [skugel@wildlandstrust.org](mailto:skugel@wildlandstrust.org) with your interests and availability.
